

DESKTOP LOOKBOOK

FROM BOTTOM TO TOP: CUSTOM CEDAR, CUSTOM MESQUITE, BAMBOO

BAMBOO

- Available in 42, 48, 60, 72, or 80 inch widths with 30 inch depths
- Available in 42, 48, 60, or 72 inch widths with 24 inch depths
- Rectangular, Curved, L-Shaped, Curved Corner, 120 Degree shapes available
- 1 inch thick
- All desktops have grommets except 80x30 inch rectangular desktops, which are available with and without grommet holes; 80x30 curved desktops are not available without grommet holes

Your office deserves more zen. That's why we offer a popular, solid bamboo desktop that is both sustainable and aesthetically pleasing. At an inch thick, our bamboo desktops are 33% thicker than the bamboo desktops offered by our competitors. This increased thickness provides a larger and more attractive edge profile with increased sturdiness and longevity that is 40%

harder than oak. Our solid bamboo desktops also feature rich tones and subtle grain variation topped off with a UV-cured finish for durability.

Made from the fastest growing plant in the world, our solid bamboo tops feature beautiful corner and edge details, rich tones, subtle grain variation, and a durable ultraviolet-cured finish.

60" x 30" BAMBOO CURVE STANDING DESK

BAMBOO

AT A GLANCE

Common Name	Moso Bamboo
Scientific Name	Bambusoideae
Region	Asia (South, East)
Tree Size	Grass Size: 25-60 ft tall, up to 3 inches in diameter
Environmental	Very sustainable, UV cured laquer finish

FEATURES

- Moso bamboo is the fastest growing plant in the world
- Beautiful corner and edge details, rich tones, subtle grain variation, and a durable ultraviolet-cured finish
- 40% harder than oak
- 1 inch thick for attractive multiple-layer edge profile and a sturdier desk

SOLID WOOD

- Available in 42, 48, 60, 72, or 80 inch widths with 30 inch depths
- Available in Rectangular and L-Shaped
- 1.75 inches thick
- All desktops have grommets except 80x30 inch rectangular desktops, which are available with and without grommet holes; 80x30 curved desktops are not available without grommet holes

Feel inspired at your desk everyday with our one-of-a-kind, natural, solid wood desktops. Our solid wood selection includes Acacia, Ash, Walnut, luminous, red-hued African Mahogany, and Pheasantwood, which is named for its natural resemblance to the black and golden figured patterns on a pheasant's tail feathers.

These 1.75 inch thick, heavyweight desktops come in five authentic exotic solid woods with rich colors and distinctive grains. Each solid wood desktop comes with unique and striking features that make them truly one-of-a-kind.* Imperfections in the wood are filled in with black filler to ensure the desktop's surface is smooth.

*As they're naturally produced, our solid wood desktops come with asymmetrical lines, random grain patterns, variations in color, knots, tiny hairline cracks, and other natural irregularities. They reflect the untamed, pure habitat in which they grew and their imperfections are what make them desirable to begin with.

60" x 30" WALNUT SOLID WOOD STANDING DESK

ASH

SOLID WOOD

AT A GLANCE

Common Name	White Ash
Scientific Name	Fraxinus Americana
Region	Eastern North America
Tree Size	65-100 ft tall + 2-5 ft diameter
Environmental	Open air cured nitrocellulose finish

FEATURES

CUSTOM SOLID WOOD

As they're naturally produced, our solid wood desktops come with asymmetrical lines, random grain patterns, variations in color, knots, tiny hairline cracks, and other natural irregularities

RECLAIMED SOLID WOOD

- Available in 42, 48, 60, 72, or 80 inch widths with 30 inch depths only
- 1.5 inches thick
- All desktops have grommets except 80x30 inch rectangular desktops, which are available with and without grommet holes; 80x30 curved desktops are not available without grommet holes

Add rustic style and vintage character to your desk with a reclaimed desktop. These desktops are crafted from wood remnants that are normally discarded or wasted during the manufacturing process. This process imbues each solid wood desktop with a unique design aesthetic, while

dramatically reducing material waste and CO2 emissions. Our Reclaimed Fir desktops have natural divots and grooves, wood planks, color variation, and are as smooth to the touch as our other solid wood desktops.* But you won't find a desktop with more character.

*As they're naturally produced, our solid wood desktops come with asymmetrical lines, random grain patterns, variations in color, knots, tiny hairline cracks, and other natural irregularities. They reflect the untamed, pure habitat in which they grew and their imperfections are what make them desirable to begin with.

RUBBERWOOD SOLID WOOD

- Available in 42, 48, 60, 72, or 80 inch widths with 30 inch depths only
- 1 inch thick
- All desktops have grommets except 80x30 inch rectangular desktops, which are available with and without grommet holes; 80x30 curved desktops are not available without grommet holes

Don't be confused by the name: rubberwood desktops do not have the consistency of rubber. In actuality, its solid wood lumber is hearty like that of other hardwoods, which we handcraft into beautiful solid wood desktops.

Rubberwood desktops begin their lives as Pará trees in Southeast Asia. Decades of tapping for prized latex-creating sap causes the rubberwood to harden and develop a natural

lustre to its wood grains. Once ready, the lumber is sustainably up-cycled and repurposed as an eco-friendly and genuine solid wood desktop.*

*As they're naturally produced, our solid wood desktops come with asymmetrical lines, random grain patterns, variations in color, knots, tiny hairline cracks, and other natural irregularities. They reflect the untamed, pure habitat in which they grew and their imperfections are what make them desirable to begin with.

GREENGUARD GOLD LAMINATE

- Available in 42, 48, 60, 72, or 80 inch widths with 30 inch depths
- Available in 42, 48, 60, or 72 inch widths with 24 inch depths
- Rectangular, L-Shaped, Curved Corner, 120 Degree Shapes Available
- ASTM Standards D-5116 and D-6670
- US Environmental Protection Agency's testing protocol for furniture
- ISO 16000 Environmental Testing Series
- All desktops have grommets except 80x30 inch rectangular desktops, which are available with and without grommet holes; 80x30 curved desktops are not available without grommet holes

Our 1 inch thick GREENGUARD Gold certified laminate desktops are perfect for those who prefer a classic office look. If you prefer perfect lines, consistent color, and matching patterns over the unique quality of solid wood, you will be most satisfied with a laminate desktop. In order to achieve GREENGUARD Gold certification,

each of these laminate desktops meet the world's highest standards for low chemical emissions.

They have been tested for more than 10,000 chemicals, which makes them ideal for everyone, including schools and healthcare facilities. Translation: you get a desk that's incredibly eco-friendly and safe to use in your home or office.

ECO CURVE

- Available in 42, 48, 60, 72, or 80 inch widths with 30 inch depths
- Available in 42, 48, 60, or 72 inch widths with 24 inch depths
- 1 inch thick
- All desktops have grommets except 80x30 inch rectangular desktops, which are available with and without grommet holes; 80x30 curved desktops are not available without grommet holes

Eco tops use locally sourced, clean fiberboard from Austin that's over 100% diverted from manufacturing process discard streams during other manufacturing processes, recycled sawdust, and/or reutilization of rework and scrap materials. It's certified by the Sustainable Forestry Initiative. We formulated a powder-coated finish that's extremely durable, and it's applied to the entire desktop so there are no seams. The finish is eco friendly, UV-cured, and is applied to all sides (even

the bottom) to create a durable and resilient surface. It's a perfect finish for curved tops that need to avoid seams on the front beveled edges. The finish has a light texture for an organic feel. Over the years we've refined our formula to lead the industry with the most durable, hard, and water-resistant powder coated MDF (medium density fiberboard) desktop. With a center cutout, smooth corners, and softly beveled edges, our Eco Curve desktops let you reach more of your workspace.
